

Dated:18.11.2025

To,

The Director,
Govt. of India, MOEF,
Northern Regional Office,
Bays No. 24-25, Sector-31,
Chandigarh-160030

Subject: Submission of six-monthly compliance report of M/s. Rajdhani Casting (P) Limited, Amloh Road, Mandi Gobindgarh, District Fatehgarh Sahib, Punjab. For the monitoring period ending September, 2025.

Dear Sir,

This is in reference to the requirement stated in Environmental Clearance granted by Ministry of Environment & Forests, Government of India New Delhi vide their letter No. **J-11011/271/2009-IA-II** Dated **30/09/2010**. Copy of the same was sent by them to your office as well.

As per the conditions no. XIII of the Environment Clearance for our aforesaid project, we are herewith submitting the half yearly compliance report for the monitoring period ending September, 2025.

Thanking you & Regards

CONTACT DETAILS:

Name: -Sh. Anil Kumar Garg
Mobile No-98888-24406

DATA SHEET

1	Project Type	Steel Manufacturing unit Schedule:3(a):Metallurgical Industries (ferrous & nonferrous)
2	Name of Project	M/s. Rajdhani Casting (P) Limited
3	Clearance letter No. EC Extension Proposal No.	F. No. J-11011/271/2009-IA II(I) Dated 30.09.2010 IA/PB/IND/3867/2010 Dated 20.10.2017
4	Location: a) District (S) b) State (S) c) Latitudes d) Longitudes	Fatehgarh Sahib Punjab 30°38'2.08"N 76°18'11.84"E
5	Address for Correspondence	Mr. Anil Garg, Director, Rajdhani Steel Rolling Mills, Amloh Road, Mandi Gobindgarh, District – Fatehgarh Sahib, Punjab Mobile - 98888-24406 Email: 2006anilkumar@gmail.com
6	Salient features: a) of project b) EMP	The Industry was granted Environmental Clearance vide letter no. - F. No.- J-11011/271/2009-IA.II(I) dated 30 th September, 2010 for manufacturing of Steel Ingots @ 224TPD and TMT bars@ 200TPD. But due to the scarcity of electric power in Punjab at that vary time, project was not take-up. So in the year, 2015-16, Punjab became a power-surplus state, and after obtaining the extension in the validity vide proposal no. IA/PB/IND/3867/2010 Dated 20.10.2017, project was established and got operational in the year January 2020. The total water requirement for the project is 33 KLD and the power requirement is 16 MW, which is sourced from the Punjab State Electricity Board. The total project cost is Rs.35 Cr. Rs. 1.0 Cr.
7	Breakup of project Area a) Submerged area forest & non-forest. b) Others	NIL 23,700 sqm.

8	Breakup of project affected population with enumeration of those losing houses/dwelling units only, agriculture land only both dwelling units and agriculture land and landless laborers/artisans a) SC/ST/Adivasis b) others	NA --
9	Financial details a) Project cost as originally planned and subsequent revised estimates and the year of price rat reference. b) Allocation made for environmental management plans with item wise ad year wise breakup. c) Benefit cost ratio/internal rate of return and year of assessment. d) Whether(c) includes the cost of environmental management as shown in b) above. e) Actual expenditure incurred on the project so far. f) Actual expenditure incurred on the EMP so far	35 Cr. Rs. 1.0 Cr. ---- Yes 28.31 Cr. ----
10	Forest land requirement: a) The status of approval for diversion of forest land for non –forestry use. b) Status of clear felling c) The status of compensatory a forestation, if any. d) Comments on the viability & sustainability of compensatory a forestation programs in the light of actual field experience so far.	NA NA NIL NIL
11	The status of clear felling in non-forest areas.	NIL
12	Status of construction: a) Date of commencement b) Date of completion.	Completed. 15/01/2017 31/12/2019
13	Reason for delay if any the projects yet to start.	NA

ANNEXURE-I**Compliance Report of Stipulated Conditions of Environmental Clearance**

Sr. No.	EC Conditions	Compliance Status as on 30.09.2025
A. SPECIFIC CONDITIONS:		
i.	The company shall install bag filters to control the particulate matter emissions below 50 mg/Nm ³ .	Complied. Instead of Wet Scrubber & bag filter, a spark arrestor followed by bag filter having more than 99% efficiency have been installed as APCS on the induction furnace. The particulate concentration in the flue gas as periodically monitored by the board is well within the prescribed standard.
ii.	The National Ambient Air Quality Standards issued by the Ministry vide G.S.R. No. 826 (E) dated 16 th November, 2009 should be followed.	Ambient air quality monitoring is being conducted by NABL approved laboratory on regular basis. Latest monitoring report of ambient air enclosed as Annexure-VIII .
iii.	Gaseous emission levels including secondary fugitive emission from all the sources shall be controlled within the latest permissible limits issued by the Ministry vide G.S.R. 414(E) dated 30 th May, 2008 and regularly monitored Guidelines/ Code of Practice issued on the CPCB should be followed.	Agreed & Complying: Side suction hood have been provided on induction furnace for consist of fugitive emission and the same are routed to the bag filter. The gaseous emissions are regularly being monitored by the board.
iv.	Efforts shall be made to make use of rain water harvested. If needed, capacity of the reservoir should be enhanced to meet the maximum water requirement. Only balance water requirement shall be met from other sources.	Complying: The rainwater is being harvested by storing it in a reservoir and the same is partly used after the treatment in Colling tower and in greenbelt. Further, 1-liter capacity of holding tank shall be augmented next year.
v.	The total water requirement shall not exceed 66 KLD. Permission from the State Irrigation Department/ Central Ground Water Board for drawl of water shall be obtained as may be applicable in this case.	We have already filed the ground water application for the abstraction of ground water, as the permission is granted. Copy of the same will be submitted along with upcoming compliance report.
vi.	Risk and Disaster Management Plan along with the mitigation measures shall be prepared and a copy shall be submitted to the Ministry's Regional Office at Chandigarh. SPCB and CPCB within 3 months of issue of environment clearance letter.	Shall be complied with

vii.	As proposed green belt shall be developed in 33% of the plant area. Selection of plant species shall be as per the CPCB guidelines in consultation with the DFO.	Greenbelt already developed and the photographs of the same enclosed herewith as Annexure-IV.
viii.	All the commitments made to the public during the Public Hearing/ Public Consultation meeting held on 15 th January, 2010 should be satisfactory implemented and a separate budget for implementing the same should be allocated and information submitted to the ministry's Regional Office at Chandigarh.	Agreed & complied.
ix.	At least 5% of the total area of the project should be earmarked towards the Enterprise Social Commitment (ESC) based on local needs and action plan with financial and physical break-up details should be prepared and submitted to the Ministry's Regional office at Chandigarh. Implementation of such program should be ensured accordingly in a time bound manner.	As per the additional environment activities, we have already spent about Rs. 75 Lakh for the development of the nearby vicinity, which includes internal village road, roadside plantation and providing books and medical aid to the economically weaker section. Copy of the ledger enclosed as Annexure-VI .
x.	The company shall provide housing for construction labour within the site with all necessary infrastructure and facilities such as fuel in working mobile toilets. Safe drinking water medical health and crèche etc. The housing may be in the form of temporary structures to be removed after the completion of the project.	Complied: Local Labours requiring no housing facilities were engaged during construction. However, potable drinking water, rest rooms and sanitation facilities were also provided. At present the project is in operation phase.
B. GENERAL CONDITIONS:		
i.	The project authorities must strictly adhere in the stipulations made by the Punjab Board and the State Government.	Complying Stipulation made by the SPCB and State Government are being strictly followed.
ii.	No further expansion or modifications in the plant shall be carried out without prior approval of the Ministry of Environment, Forest and Climate Change.	Noted & agreed.
iii.	The gaseous emissions from various process units shall conform to the load/mass-based standards notified by the Ministry on 19 th May, 1993 and standards prescribed from time to time. The State Pollution Control Board may specify more stringent standards for the relevant parameters	Complying and agreed to comply with any other condition/measures the board may prescribe in future.

	keeping in view the nature of the industry and its size and location.	
iv.	At least four ambient air quality monitoring stations should be established in the downward direction as well as where maximum ground level concentration of PM ₁₀ , PM, SQ ₂ and SQ _N are anticipated in consultation with the SPCB. Data on ambient air quality and stack emission shall be regularly submitted to this Ministry including its Regional Office at Chandigarh and the SPCB/CPCB once in six months.	Complying: The industry has made an agreement with NABL accredited lab for requisite air quality monitoring at required locations. The result of air quality and stack emission monitoring are being regularly send to the concerned authorities. The latest air quality report enclosed as Annexure-VIII.
v.	Industrial waste water shall be properly collected, treated so as to confirm to the standards prescribed under GSR 422 (E) dated 19 th May,1993 and 31 st December,1993 or as amended from time to time. The treated waste water shall be utilized for plantation purpose.	Complying: There is no generation of industrial waste water. However, the domestic waste water after septic treatment is being used with in the premises for plantation purposes.
vi.	The overall noise levels in and around the plant area shall be kept well within the standards 85 dB (A) by providing noise control measures including acoustic hoods, silencers, enclosures etc. on all sources of noise generation. The ambient noise levels should confirm to the standards prescribed under EPA Rules, 1989 viz. 75 dB(A) day time) and 76 dB(A) (night time).	Complying There is no noise generating process, equipment in the industry, but the care is always taken to confirm the noise level to prescribed standards as per the ambient noise monitoring reports attached as Annexure- VIII
vii.	Occupational health surveillance of the workers shall be done on a regular basis and records maintained as per the Factories Act.	Agreed & Complying: The workers are being periodically examined for specific health checkups and records maintained.
viii.	The company shall develop surface water harvesting structures to harvest the rain water for utilization in the letter season besides recharging the ground water table.	Complying: By collecting and storing the surface runoff for extended use in plantation purpose.
ix.	The project proponent shall also comply with all the environmental protection measures and safeguards recommended in the EIA-EMP report. Further, the company must undertake socio-economic development activities in the surrounding villages like community development programmes, educational programmes, drinking water supply and health care etc.	Noted & agreed.

x.	Requisite funds shall be earmarked towards capital cost and recurring cost/ annum for environment pollution control measures to implement the conditions stipulated by the Ministry of Environment, Forest and Climate Change as well as the State Government. An implementation schedule or implementing all the conditions stipulated herein shall be submitted to the Regional Office of the Ministry at Chandigarh. The funds so provided shall not be diverted for any other purpose.	Complying: As per the additional environment activities, we have already spent about Rs. 75 Lakh for the development of the nearby vicinity, which includes internal village road, roadside plantation and providing books and medical aid to the economically weaker section. Copy of the ledger enclosed as Annexure-V .
Additional condition added at the time of EC-Extension		
i	The project authorities must strictly adhere to the stipulations made by the State Pollution Control Board and the State Government.	Noted & complying with the consent conditions.
ii	All other terms and conditions mentioned in the Environmental Clearance vide F.No. J-11011/ 271 /2009-IA.II(I) dated 30 th September 2010 will remain same.	Noted and agreed.

EC LETTER

F. No. J-11011/271/2009- IA II (I)
Government of India
Ministry of Environment and Forests
(I.A. Division)

Paryavaran Bhawan
CGO Complex, Lodhi Road

E-mail: ms.industry-mef@nic.in
Tele/fax: 011 – 2436 3973
Dated: September 30th, 2010

To,
The Director,
M/s. Rajdhani Casting Pvt. Ltd.
Amloh Road, Mandi Gobind Garh,
District Fatehgarh Sahib, Punjab.

E-mail: 2006anilkumar@gmail.com

Sub: Setting up of Induction Furnace (MS ingots - 224 MTPD) and Rolling mill (TMT bars - 200 MTPD) at Village Kumbra, Tehsil Amloh Road, Mandi Gobindgarh, District Fatehgarh Sahib, Punjab by M/s. Rajdhani Castings Pvt. Limited Reg. Environmental Clearance

Sir,

This has reference to your letter no. RCPL/2010/1108 dated 26th April, 2010 along with copies of final EIA / EMP and public hearing reports seeking environment clearance under the provisions of EIA Notification, 2006.

2. The Ministry of Environment and Forests has examined the proposal. It is noted that M/s Rajdhani castings Pvt. Ltd. have proposed for setting up of Induction Furnace (MS ingots - 224 MTPD) and Rolling mill (TMT bars - 200 MTPD) at Village Kumbra, Tehsil Amloh Road, Mandi Gobindgarh, District Fatehgarh Sahib in Punjab. The total land acquired for the project is 2.4 ha. No eco sensitive areas are located with 10 km radius of the plant. The air pollution control equipment will include collection wood ducting, centrifugal spray scrubber, mist eliminator followed by stack to control the PM below 150 mg/Nm³. The emission from gassifier will be provided with gravity separator and cyclonic separator to remove the particulate matter. There will be negligible emissions from materials handling including storage or transport in the industry. The total cost of the project will be Rs. 16.37 Crores.

3. The total water requirement for the proposed plant will be 66 KLD. The total wastewater generated (8.5 KLD), after treatment through septic tanks will be used on land for irrigation purpose. Slag (2.5 MT/day) from induction furnace and end cuttings & scale loss (1 MT/day) from rolling mill will be reused in downstream industry. The hazardous waste used/ spent lubricant and transformer oil (1000 lit/year) will be sold to authorized recyclers. The total power requirement for the proposed plant will be 10 MW, which will be sourced from Punjab State Electricity Board.

4. All the Induction Furnaces & Rolling Mills are listed at S. No. 3(a) under Secondary Metallurgical Industries in Category 'B' of Schedule of the EIA notification 2006 and should be appraised at SEIAA level but due to the location of project within 10 km of the Mandi-Gobindgarh which is a critically polluted area, as per general condition of EIA Notification, 2006, the proposal has been appraised by the Expert Appraisal Committee-1 (Industry) at central level.

5. The proposal was considered by the Expert Appraisal Committee-1 (industry) in its meeting held during 26th -28th August, 2010. The Committee recommended the proposal for environmental clearance subject to stipulation of specific conditions along with other environmental conditions. Public hearing of the project was held on 15th January, 2010.

6. Based on the information submitted by you, presentation made by you and consultant, M/s Ace Engineers and Consultants, Patiala, the Ministry of Environment and Forests hereby accords environmental clearance to the above project under the provisions of EIA Notification dated 14th September 2006 subject to strict compliance of the following Specific and General conditions:

A. - SPECIFIC CONDITIONS :

- i. The company shall install wet scrubber and bag filters etc. to control the particulate emissions below 50 mg/Nm³.
- ii. The National Ambient Air Quality Standards issued by the Ministry vide G.S.R. No. 826(E) dated 16th November, 2009 should be followed.
- iii. Gaseous emission levels including secondary fugitive emissions from all the sources shall be controlled within the latest permissible limits issued by the Ministry vide G.S.R. 414(E) dated 30th May, 2008 and regularly monitored. Guidelines / Code of Practice issued by the CPCB should be followed.
- iv. Efforts shall be made to make use of rain water harvested. If needed, capacity of the reservoir should be enhanced to meet the maximum water requirement. Only balance water requirement shall be met from other sources.
- v. The total water requirement shall not exceed 66 KLD. Permission from the State Irrigation Department / Central Ground Water Board for drawl of water shall be obtained as may be applicable in this case.
- vi. Risk and Disaster Management Plan along with the mitigation measures shall be prepared and a copy submitted to the Ministry's Regional Office at Chandigarh, PPCB and CPCB within 3 months of issue of environment clearance letter.
- vii. As proposed, green belt shall be developed in 33 % of the plant area. Selection of plant species shall be as per the CPCB guidelines in consultation with the DFO.
- viii. All the commitments made to the public during the Public Hearing / Public Consultation meeting held on 15th January, 2010 should be satisfactorily implemented and a separate budget for implementing the same should be allocated and information submitted to the Ministry's Regional Office at Chandigarh.
- ix. At least 5 % of the total cost of the project shall be earmarked towards the corporate social responsibility and item-wise details along with time bound action plan should be prepared and submitted to the Ministry's Regional Office at Chandigarh. Implementation of such program should be ensured accordingly in a time bound manner.
- x. The company shall provide housing for construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile

STP, safe drinking water, medical health care, crèche etc. The housing may be in the form of temporary structures to be removed after the completion of the project.

B. GENERAL CONDITIONS:

- i. The project authorities must strictly adhere to the stipulations made by the Punjab State Pollution Control Board and the State Government.
- ii. No further expansion or modifications in the unit shall be carried out without prior approval of the Ministry of Environment and Forests.
- iii. The gaseous emissions from various process units shall conform to the load/mass based standards notified by this Ministry on 19th May, 1993 and standards prescribed from time to time. The State Pollution Control Board may specify more stringent standards for the relevant parameters keeping in view the nature of the industry and its size and location.
- iv. At least four ambient air quality monitoring stations should be established in the downward direction as well as where maximum ground level concentration of PM₁₀, SO₂ and NO_x are anticipated in consultation with the SPCB. Data on ambient air quality and stack emission shall be regularly submitted to this Ministry including its Regional Office at Chandigarh and the SPCB/CPCB once in six months.
- v. Industrial wastewater shall be properly collected, treated so as to conform to the standards prescribed under GSR 422 (E) dated 19th May, 1993 and 31st December, 1993 or as amended from time to time. The treated wastewater shall be utilized for plantation purpose.
- vi. The overall noise levels in and around the cement grinding unit area shall be kept well within the standards (85 dBA) by providing noise control measures including acoustic hoods, silencers, enclosures etc. on all sources of noise generation. The ambient noise levels shall conform to the standards prescribed under EPA Rules, 1989 viz. 75 dBA (daytime) and 70 dBA (nighttime).
- vii. Occupational health surveillance of the workers shall be done on a regular basis and records maintained as per the Factories Act.
- viii. The company shall develop surface water harvesting structures to harvest the rain water for utilization in the lean season besides recharging the ground water table.
- ix. The project proponent shall also comply with all the environmental protection measures and safeguards recommended in the EIA/EMP report. Further, the company must undertake socio-economic development activities in the surrounding villages like community development programmes, educational programmes, drinking water supply and health care etc.
- x. Requisite funds shall be earmarked towards capital cost and recurring cost/annum for environment pollution control measures to implement the conditions stipulated by the Ministry of Environment and Forests as well as the State Government. An implementation schedule for implementing all the conditions stipulated herein shall be submitted to the Regional Office of the

9. Any appeal against this environmental clearance shall lie with the National Environment Appellate Authority, if preferred within a period of 30 days as prescribed under Section 11 of the National Environment Appellate Act, 1997.

10. The above conditions shall be enforced, inter-alia under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, Hazardous Wastes (Management, Handling and Transboundary Movement) Rules, 2008 and the Public (Insurance) Liability Act, 1991 along with their amendments and rules.

District – Fatehgarh Sahib, Punjab.
e-mail: 2006anilkumar@gmail.com

Subject: Setting up of induction furnace (MS Ingots 224 TPD) and Rolling Mill (TMT Bars 200 TPD) at Village Kumbra, Tehsil Amloh, Mandi Gobindgarh, District – Fatehgarh Sahib, Punjab by M/s Rajdhani Castings Private Limited - Extension of validity of Environmental Clearance regarding.

Sir,

This has reference to your online application vide proposal no. **IA/PB/IND/3867/2010** dated 7th August 2017 seeking extension of validity of Environmental Clearance granted on 30th September 2010 vide even letter number.

2.0 It was informed that Rajdhani Castings Pvt. Ltd. have already purchased the land measuring 2.37 Ha in an approved Industrial Area of Mandi Gobindgarh. Earth filling of the land has been done and partial boundary wall of the land has been done.

84 3.0 The reasons reported for delay in implementation of the project inter alia include:

- i. Induction Furnace Industry is a power intensive industry. Around 600 KW of power is required for 1 MT melting of MS scrap. In the past, at the time of grant of EC to the project, there was scarcity of electrical power in Punjab. Punjab became power surplus state in the Year 2015-16 after the completion of 1400 MW and 2100 MW new Supercritical Thermal Power Plants at Bathinda and Rajpura.
- ii. After becoming power surplus state, the cost of electrical power in Punjab was very high (Rs. 7.50 per KW) as compared to some other states. Due to high rate of electrical power, the conversion cost of MS scrap to MS ingot was high and the project was commercially not viable. Now, the State Govt. has promised to supply Industrial Power @ Rs. 5.00 per KW. With the reduction in the power cost, the project will now become commercially viable.

- iii. In the past, due to multiple taxation, the industry had to bear CST @ 2 % and entry tax in some states. Due to this, the industries from Punjab were not competitive for the export of MS ingot/MS rolled products to other states. Now, due to GST, the rates are competitive throughout India and industries from Punjab can export the MS ingot/MS rolled products to other states

4.0 Schedule of completion of balance works is reported as below:

Sl. No	Activity	Tentative Schedule
1	Grant in the extension in the validity of EC	30 th October, 2017
	Finalisation of the layout plan of the factory	31 st December, 2017
3	Civil Works for Induction Furnace Section	30 th June, 2018
4	Industrial Sheds for the Induction Furnace Section	30 th September, 2018
5	Installation of Induction Furnaces and other allied equipments	31 st March, 2019
6	Trial run of the Induction Furnace Plant	April, 2019
7	Civil Works for Rolling Mills Section	30 th September, 2019
8	Industrial Sheds for the Rolling Mills Section	31 st December, 2020
9	Installation of Rolling Mills and other allied equipments	30 th June, 2020
10	Trial run of the Rolling Mills	July, 2020
11	Commercial operation of Induction Furnaces and Rolling Mills	1 st August, 2020

5.0 The proposal was considered in the 22nd Expert Appraisal Committee [EAC (Industry-I)] held during 11th – 13th September 2017. The project proponent made presentation. During the presentation, the project proponent has submitted revised schedule of completion of the project. The revised schedule is as follows:

Sl. No	Activity	Tentative Schedule*
1	Grant in the extension in the validity of EC	30 th October, 2017
	Finalization of the layout plan of the factory and Financials	31 st December, 2017
3	Civil Works for Induction Furnace Section	30 th June, 2018
4	Industrial Sheds for the Induction Furnace Section	30 th September, 2018
5	Installation of Induction Furnaces and other allied equipment	31 st March, 2019
6	Trial run of the Induction Furnace Plant	May, 2019

6.0 After detailed deliberations the committee recommended for extension of validity of EC for further period of 18 months as agreed by the project proponent.

7.0 The Ministry of Environment, Forest and Climate Change has examined the proposal based on the recommendations of the Expert Appraisal Committee (Industry-I) and hereby decided to grant extension of validity of environment clearance for further period of three years i.e. up to 29th March 2019 subject to following conditions:

- i. Project Proponent shall strictly adhere to time schedule submitted to the Ministry in this regard.
- ii. All other terms and conditions mentioned in the Environment Clearance vide F. No J-11011/271/2009 – 1A.II (I) dated 30th September 2010 will remain same.

8.0 The PP shall obtain fresh environmental clearance in case of change in scope of the project if any.

9.0 This issues with the approval of competent authority

Consent Fee Details	Rs. 60,000/- vide R. no. 26/4589 dated 30/01/2018
Raw Materials (Name with quantity per day)	Iron Scrap, Sponge Iron and Ferro Alloys @ 238.70 MTD

Products (Name with quantity per day)	Billets @ 220 MTD Or Rolled Products (Round, Bars, Flats and Angles) @ 200 MTD
By-Products, if any, (Name with quantity per day)	-
Details of the machinery and processes	As per details given in application no. 8154708 Raw Material Furnace Loading Melting Holding Casting Hot rolling Sizing Ready
Details of the Effluent Treatment Plant	Septic tank for the treatment of domestic effluent @ 4.0 KLD
Mode of Disposal of Effluent	After treatment, onto land for plantation
Standards to be achieved under Water (Prevention & Control of Pollution) Act, 1974	As per effluent standards prescribed by PPCB/ MoEF & CC.
Sources of emissions and type of pollutants	Concast plant including induction furnace of capacity 15 T/heat- SPM
Mode of disposal of emissions with stack height	Concast plant including induction furnace of capacity 15 T/heat- Stack of 30 mtr height above ground level 2 no. DG sets of capacities 125 KVA each- Stack of 2.5 mtr height above rooflevel
Quantity of fuel required in TPD	Concast plant including induction furnace of capacity 15 T/heat- Electricity 2 no. DG sets of capacities 125 KVA each - HSD
Type of Air Pollution Control Devices to be installed	Concast plant including induction furnace of capacity 15 T/heat- Bag Filters (Feasibility from PSCST, Chandigarh) 2 no. DG sets of capacities 125 KVA each- Canopies
Standards to be achieved under Air (Prevention & Control of Pollution) Act, 1981	As per emission standards prescribed by PPCB/ MoEF & CC.

1. Particulars of Consent to Operate under Air Act, 1981 granted to the industry

Consent to Operate Certificate No.	CTOA/Renewal/FGS/2023/24216571
Date of issue :	15/12/2023
Date of expiry :	30/09/2027
Certificate Type :	Renewal
Previous CTO No. & Validity :	CTOA/Varied/FGS/2023/21920073 From:12/06/2023 To:30/09/2023

2. Particulars of the Industry

Name & Designation of the Applicant	Anil Kumar Garg, (Director)
Address of Industrial premises	M/s Rajdhani Castings Pvt. Ltd, Vill. Kumbhra, Tehsil Amloh, Mandi Gobindgarh, Amloh, Fatehgarh Sahib-147301
Capital Investment of the Industry	3827.87 lakhs
Category of Industry	Orange
Type of Industry	2063-Steel and steel products using various furnaces like blast furnace /open hearth furnace/induction furnace/arc furnace/submerged arc furnace /basic oxygen furnace /hot rolling reheated furnace
Scale of the Industry	Medium
Office District	Fatehgarh Sahib

This is with reference to the request made by the industry for renewal of consent to operate granted by the Board under the Air (Prevention and Control of Pollution) Act, 1981.

The consent to operate granted to the industry vide no. CTOA/Varied/FGS/2023/21920073 dated 12/06/2023 valid upto 30/09/2023 under the Air (Prevention and Control of Pollution) Act, 1981 is hereby renewed upto 30/09/2027 with the same conditions as mentioned therein and following specific conditions:

1. The industry shall operate & maintain its air pollution control device (APCD), regularly and efficiently, so as to achieve the stack emission standards, consistently as prescribed by the Board/ MoEF&CC as amended from time to time.
2. The industry shall ensure that no black smoke be emitted from the stack of the industry at any time.
3. The industry shall get the stack emissions monitored from the Board's lab as per policy of the Board.
4. The industry shall comply with the guidelines/SOPs provided by PSCST, Chandigarh in the effective operation of APCD.
5. The industry shall not dispose off its Hazardous waste to any unauthorized vendor.
6. The industry shall execute annual maintenance contract (AMC) for APCD from the reputed agency and submit the report in this regard.
7. The industry shall provide stack monitoring arrangements as per emissions regulations part 3 (1985 series) as per CPCB manual.
8. The industry shall not use any scrap containing Hazardous waste like shockers containing waste oil.
9. The industry shall not throw, burn or bury any solid wastes in open, outside premises or in drain / water bodies.
10. The industry shall promote use of alternatives of single use plastics (SUP) and awareness to discourage use of plastic, through their Corporate Environment Responsibility (CER) activities.
11. The industry shall ensure that there are no usages of single use plastic-thermocool disposable items such as water bottles / water pouches/water cups, plates, forks, spoons, straw etc. and single use decorating material made of plastic-thermocool or any other non-biodegradable material in the premises.
12. The industry shall properly handle and manage the solid wastages as per the provisions of the Municipal Solid Waste Rules 2016 and ensure that the solid waste is segregated & disposed of in an environmentally sound manner.
13. The industry shall provide thick plantation of spreading crown varieties of evergreen trees all along the boundary wall.
14. The industry shall plant trees wherever space is available inside and outside the unit.
15. The industry shall not undertake expansion without obtaining approval from the Board.
16. The industry shall ensure that there is no public nuisance in the area, due to activities of the industry.
17. The industry shall control gaseous emissions including secondary fugitive emissions from all the sources within the permissible limits and get it monitored regularly.

All other contents shall remain unchanged. This letter shall remain appended with the consent issued vide no. CTOA/Varied/FGS/2023/21920073 dated 12/06/2023 to the industry under the Air (Prevention & Control of Pollution) Act, 1981.
